

# Horizon Terminals Freeport

Horizon Terminals Freeport is a private deep water terminal that provides customers a variety of professional and value added services such as vehicle and equipment processing, warehousing, long and short term storage, efficient waterway, road and railroad access and Foreign Trade Zone (FTZ) facilities. The terminal is set up to handle a wide selection of cargoes including vehicles (factory new and previously owned) high and heavy machinery, static pieces, breakbulk and project cargoes.

## Quality and Safety

Safety is a high priority for Horizon Terminals Freeport and we take pride in providing clean and safe working environments. Our goal is to keep our personnel safe along with damage free cargo and equipment.

The terminal is fully fenced and lighted with 24/7/365 security with roving patrols to keep cargo in our care safe at all times.

## The perfect location

Horizon Terminals Freeport is centrally located along the Gulf Coast of Texas, just 60 miles south of Houston. The facility is just off of the 45' deep Freeport Harbor Channel and has direct access to the Intercoastal Waterway, State Highways 36 and 288 and rail access provided by the Union Pacific Railroad.

## Facilities

Horizon Terminals Freeport's current facilities are comprised of 60 acres, with an additional 150 acres available for future growth. This facility is fully paved or stabilized, fenced and lighted .

The terminal offers 3 deep water berths, a 70 000 sqft vehicle processing building, a 36 000 sqft body shop, a car wash and a parts building.

There is also a 90 000 sqft dockside transit shed/warehouse and a 58 000 sqft equipment processing building available.

Any portion of Horizon Terminals Freeport's entire facility can be activated as a Foreign Trade Zone (FTZ), which would include both land and warehouse space.
